Group /Department:

2. ABSTRACT

Brief summary to highlight the main purpose of the project. (max. 750 characters, including spaces)

3. TECHNICAL DESCRIPTION

The project description should present the overall goal, the accelerator-related technology or method, the current development state, and planned actions using the funding. It must clearly explain the technical problem and proposed solution, demonstrate the **technological relevance** and **level of innovation** compared to the state of the art, and define both the starting TRL and a realistic target TRL. The role of **potential external partners** should be clearly defined. (max. 2000 characters, including spaces)

4. TRANSFER PERSPECTIVE

The proposal should describe the intended non-scientific use case and highlight the technology's unique advantages compared to existing market solutions. It should identify **relevant markets**, competitors, and customer needs, and outline **short-, medium-, and long-term transfer potential**, also in relation to LOIs and the role of potential external partners. It must present its **follow-up perspective** and **economic exploitation potential** towards commercialization (e.g. commercial beamtime), further R&D funding, or industrial investment. (max. 2000 characters, including spaces)

How does your project contribute to the overall Hi-Acts objectives? (max. 500 characters, including spaces)

6. FINANCIAL PLAN

Type	Details (only key words)	Amount in €
Investments (capital expenditure / CAPEX)	TOTAL

7. ANNEX

Provide a full list of all attachments in the text box below. Attach at least one LOI (letter of intent) or written statement (e.g. e-mail) of a potential customer or user of the intended solution or service. The annex may also be used for additional images that are referenced in the text.

Important note:

Your application will be forwarded to selected industry representatives for their recommendation and to the transfer experts of the Helmholtz partners in the Hi-Acts consortium for review. All information provided in the application will be kept strictly confidential. The industry representatives and transfer reviewers will neither forward the application to third parties nor make it accessible to third parties. This applies even after the selection process has been completed.

To keep you informed about Hi-Acts activities and opportunities, all applicants of the proposal will be added to the Hi-Acts newsletter. You may unsubscribe at any time.

Please send this application back to: info@hi-acts.de

THANK YOU FOR YOUR APPLICATION
